### COACHING Skills development

Coaching is leading. Once you have the tools, you will find it is the most powerful form of leadership you can practice. *Leaders with the proper coaching skills can motivate direct reports and work with both bosses and peers in a manner that reduces friction and enhances productivity.*

Coaching focuses on helping another person learn in ways that let him or her keep growing afterward. It is based on asking rather than telling, on provoking thought rather than giving directions and on holding a person accountable for his or her goals.

- ✓ Broadly speaking, the purpose is to increase effectiveness, broaden thinking, identify strengths and development needs and set and achieve challenging goals.
- ✓ Individuals who want to increase coordination, communication, and collaboration to enable increased productivity.

**This is a workshop for Individuals who want to lead with respect.**
